## First Quarter Earnings

Net income for the first quarter of 2024 was $\$ 27.2$ million, or $\$ 0.89$ per diluted share, compared to $\$ 22.7$ million, or $\$ 0.74$ per diluted share, for the fourth quarter of 2023 . The $\$ 4.5$ million increase during the quarter was primarily driven by a $\$ 2.2$ million decrease in provision for credit losses, a $\$ 1.2$ million decrease in income tax expense, a $\$ 0.8$ million increase in non-interest income, and a $\$ 0.7$ million increase in net interest income.

Core net income ${ }^{1}$ for the first quarter of 2024 was $\$ 25.6$ million, or $\$ 0.83$ per diluted share, compared to $\$ 22.1$ million, or $\$ 0.72$ per diluted share, for the fourth quarter of 2023. Excluded from core net income for the quarter, pre-tax, was $\$ 2.9$ million of ICS One-Way Sell fee income, $\$ 2.8$ million of losses on the sale of securities, $\$ 1.8$ million of tax credits from solar tax equity investments, $\$ 0.5$ million in gains on the settlement of a lease termination, and $\$ 0.2$ million in severance costs. Excluded from core net income for the fourth quarter of 2023, pre-tax, was $\$ 2.3$ million of losses on the sale of securities and $\$ 3.3$ million of tax credits from our solar tax equity investments.

Net interest income was $\$ 68.0$ million for the first quarter of 2024, compared to $\$ 67.3$ million for the fourth quarter of 2023. Loan interest income increased $\$ 0.4$ million driven by a $\$ 19.5$ million increase in average loan balances coupled with an 8 basis point increase in loan yields. Interest income on securities decreased $\$ 0.7$ million driven by a decrease in the average balance of securities of $\$ 5.4$ million. Interest income on resell agreements increased $\$ 1.1$ million driven by a $\$ 62.2$ million increase in the average balance and a 32 basis point increase in yields. The increase in interest income was offset by higher interest expense on total interest-bearing deposits of $\$ 0.6$ million driven by an 18 basis point increase in cost offset by a decrease in the average balance of total interest-bearing deposits of $\$ 152.4$ million. The changes in deposit costs were primarily related to increased rates on select non-time deposit products and a 29 basis point increase in the cost of time deposits. The decrease in the average balance of interest-bearing deposits was primarily driven by a decrease in the average balance of higher cost brokered deposits of $\$ 119.1$ million.

Net interest margin was $3.49 \%$ for the first quarter of 2024, an increase of 5 basis points from $3.44 \%$ in the fourth quarter of 2023. The increase is largely due to increased yields on increased loan related average balances. In addition, $\$ 81.2$ million in short-term resell agreements were deployed to utilize excess deposit liquidity. Prepayment penalties had no impact on our net interest margin in the first quarter of 2024, which is the same as in the prior quarter.

Provision for credit losses totaled an expense of $\$ 1.6$ million for the first quarter of 2024 compared to an expense of $\$ 3.8$ million in the fourth quarter of 2023. The expense in the first quarter is primarily driven by increases in specific loan reserves, charge-offs on the solar loan portfolio, and an increase in reserve for multifamily loans to reflect the current market repricing conditions, offset by improvements in macro-economic forecasts used in the CECL model.

Non-interest income was $\$ 10.2$ million for the first quarter of 2024, compared to $\$ 9.4$ million in the fourth quarter of 2023. Core non-interest income ${ }^{1}$ was $\$ 8.3$ million for the first quarter of 2024, compared to $\$ 8.5$ million in the fourth quarter of 2023. The decrease was primarily related to lower BOLI income and commercial banking fees, offset by an increase from fees from our treasury investment services.

Non-interest expense for the first quarter of 2024 was $\$ 38.2$ million, an increase of $\$ 0.4$ million from the fourth quarter of 2023. Core non-interest expense ${ }^{1}$ for the first quarter of 2024 was $\$ 38.5$ million, an increase of $\$ 0.8$ million from the fourth quarter of 2023 . This was mainly driven by a $\$ 1.1$ million increase in compensation and employee benefits expense due to select differential investments in employees as well as increased payroll taxes.

Our provision for income tax expense was $\$ 11.3$ million for the first quarter of 2024 , compared to $\$ 12.5$ million for the fourth quarter of 2023 . In the prior quarter a state and city tax examination resulted in a $\$ 3.3$ million adjustment, while the conclusion of the analysis in the first quarter of 2024 resulted in an adjustment of $\$ 0.9$ million. Excluding the tax adjustment, our effective tax rate for the first quarter of 2024 was $26.9 \%$, compared to $26.2 \%$ for the fourth quarter of 2023.

Total net loans receivable, at March 31, 2024 were $\$ 4.4$ billion, an increase of $\$ 13.8$ million, or $0.3 \%$ for the quarter. Excluding uninsured super-core deposits of approximately $\$ 2.9$ billion, remaining uninsured deposits were approximately $16 \%-19 \%$ of total deposits with immediate liquidity coverage of $323 \%$.

Nonperforming assets totaled $\$ 34.0$ million, or $0.42 \%$ of period-end total assets at March 31, 2024, a decrease of $\$ 0.2$ million, compared with $\$ 34.2$ million, or $0.43 \%$ on a linked quarter basis. The decrease in nonperforming assets was primarily driven by a $\$ 2.5$ million decrease in residential real estate nonaccrual loans, offset by a $\$ 1.2$ million increase in commercial and industrial nonaccrual loans, and a $\$ 1.2$ million increase in consumer solar nonaccrual loans.

During the quarter, the allowance for credit losses on loans decreased $\$ 1.3$ million to $\$ 64.4$ million. The ratio of allowance to total loans was $1.46 \%$, a decrease of 3 basis points from $1.49 \%$ in the fourth quarter of 2023.

## Non-GAAP Financial Measures

This release (and the accompanying financial information and tables) refer to certain non-GAAP financial measures including, without limitation, "Core operating revenue," "Core non-interest expense," "Core non-interest income," "Core net income," "Tangible common equity," "Average tangible common equity," "Core return on average assets," "Core return on average tangible common equity," and "Core efficiency ratio."

Our management utilizes this information to compare our operating performance for March 31, 2024 versus certain periods in 2024 and 2023 and to prepare internal projections. We believe these non-GAAP financial measures facilitate making period-to-period comparisons and are meaningful indications of our operating performance. In addition, because intangible assets such as goodwill and other discrete items unrelated to our core business, which are excluded, vary extensively from company to company, we believe that the presentation of this information allows investors to more easily compare our results to those of other companies.

The presentation of non-GAAP financial information, however, is not intended to be considered in isolation or as a substitute for GAAP financial measures. We strongly encourage readers to review the GAAP financial measures included in this release and not to place undue reliance upon any single financial measure. In addition, because non-GAAP financial measures are not standardized, it may not be possible to compare the non-GAAP financial measures presented in this release with other companies' non-GAAP financial measures having the same or similar names. Reconciliations of non-GAAP financial disclosures to comparable GAAP measures found in this release are set forth in the final pages of this release and also may be viewed on our website, amalgamatedbank.com.
