New capital partnership streamlines access to C-PACE financing for projects of all sizes—enabling faster closings, expanded lender participation, and a renewed emphasis on the underserved middle market

NEW YORK--(BUSINESS WIRE)--Oct. 22, 2025-- Amalgamated Bank today announced a capital commitment of up to \$250 million to fund commercial real estate projects originated through [FASTPACE.com](https://www.fastpace.com), Allectrify's tech-enabled C-PACE lending platform that connects property owners and developers to a growing network of more than 40 capital providers nationwide. The commitment dramatically expands access to long-term, flexible C-PACE financing for commercial real estate projects across the country—particularly in the underserved middle market involving projects ranging from \$250,000 to \$10 million.

Unlike traditional, deal-by-deal C-PACE structures, this portfolio-based commitment gives FASTPACE delegated authority to screen and package qualifying projects on behalf of Amalgamated Bank. The result: a faster, more efficient process that allows property owners and developers to close deals with confidence and enables capital providers to scale their C-PACE activity without building out an internal team.

Amalgamated Bank, a leader in sustainable finance, continues to lead innovation in this exciting asset class, increasing diversity across project sizes and expanding access to PACE.

"FASTPACE brings the kind of speed and standardization this market will greatly benefit from," said Sam Brown, Amalgamated Bank's Chief Banking Officer. "With this commitment, we're able to underwrite and deploy C-PACE capital at scale without sacrificing rigor or flexibility. It's a win for us, for the FASTPACE team, and for the communities where these projects are happening."

"This commitment affirms the strength of the FASTPACE platform and its ability to serve as reliable infrastructure for programmatic capital deployment," said Colin Bishopp, CEO of Allectrify, the company behind [FASTPACE.com](https://www.fastpace.com). "Partnering with Amalgamated in this way allows us to bring C-PACE financing back to its original purpose: unlocking capital for smaller, retrofit-focused projects that were previously too time-intensive or uneconomical to close."
